High School**

Clinic

**Sunday, November 12th
Stepper-ette Studios
8:00am-12:15pm**

This year for the Reach for the Stars Competition, we are preparing students for the Duet and Basic Square events. Students have been working on these events during class and have been learning what a judge will look for. We are very excited about offering these events and feel that they will be very beneficial for all students. I have noticed marked improvements in individuals during class as we have been working on challenging tricks and emphasizing quality of skills.
